

**MARION FAMILY YMCA FACILITY CLEANING AND MAINTENANCE
"SHUT DOWN" SCHEDULE August 2 through September 2, 2019**

With many families taking August vacations and schools starting, August is a good time for us to do some deep cleaning and maintenance around the building.

In the past, we've often closed our entire building for several days. We're not doing that this year. Instead, we're closing specific areas of the building for cleaning, maintenance and repairs.

August 2: Kids Gym & Conference Room Closed (starting at Noon)

We're refinishing the hall floor outside of these rooms

August 3 Noon through Sept. 8: 8 Lane Pool Closed

Over the past 7 months, we've had leaks in several spots in the caulking at the bottom of the 8 Lane Pool. These leaks have costs us over \$10,000 in water loss. We're closing to remove and replace that caulk.

After the work is done, the caulk requires 20 days to cure before we can add water. Once we starting adding water, it can take up to 5 days to fill, balance and heat the water.

August 8 Noon through August 14: Conference Room Closed

August 12 8:00 am through August 20: Second Floor Closed

We are finalizing work and repairs above the ceilings, both related to the Aerobics Studio 2 improvements and others just pending due to age.

We're also giving the second floor a good cleaning and moving equipment between the Aerobic Studios.

Mirrors will be installed in AS 2; and other finishing touches on this space.

August 12 through August 14: Child Watch & Kids Gym Closed

Giving Child Watch a deep clean.

August 21 through August 30 - Both Gyms Closed

We are refinishing the gym floor, both sides. After the work is done, the floor needs to cure before use. Please respect this process and don't enter the gym while it's closed, even if the floor looks finished.

August 28 8:00 am through August 30 Small Pool, Spa and all locker rooms closed

Giving the locker rooms and pool decks a deep clean and making some repairs. We are also installing a "Mothers' Room" in the Family Female Locker Room for women who would like a private space to breastfeed or pump.

Monday, September 2: Entire facility closed for Labor Day

See other side

Other work being done and improvements in the building over the next six weeks include:

- New heating & cooling roof top unit and dehumidification system for the spa.
- Repairs to Small Pool roof top unit (for heating & cooling).
- Repairs to heating & cooling system in front half of building.

As members of the Marion Family YMCA, you have membership privileges of all Ys through Nationwide Membership. If a part of the Y is closed that you enjoy, you may want to visit a neighbor:
